Project Title: Software Quality Improvement through User Feedback
Researcher: Qingyan Huang

Purpose of the Interview:
The objective of this interview is to gather feedback and insights regarding our software in order to enhance its quality, performance, and user experience.

Procedures:

- 1 The interview will be conducted either in-person, by phone, or via a digital communication platform (as per mutual agreement).
- 2 The duration of the interview will be approximately [specific duration, e.g., "30 minutes"].
- 3 The interview will involve a series of questions related to your experience with the software.

Recording:
Please be informed that this interview will be recorded. The recordings will solely be used to ensure that we capture all your feedback accurately and will not be used for any other purpose.

Question	Aim
Please describe your Job.	Relevance to the project
Do you believe this software can aid in the early prevention of heart diseases?	Evaluation of outcomes
How would you rate the usability of the software?	Convenience of software interaction
In what areas do you think the software could be improved?	Areas seeking enhancement.

Confidentiality:
Your identity and personal details will remain confidential. The information you provide will be anonymized and used exclusively for the betterment of the software. No personal identifiers will be used in any reports, publications, or presentations resulting from this interview.

Voluntary Participation:
Your participation in this interview is completely voluntary. You have the right to decline participation, or withdraw at any point during the interview, without any repercussions.

Consent:

I, [Participant's Name], hereby acknowledge that I have read and understood the purpose and procedures of this interview. I voluntarily agree to participate and understand that I can withdraw my consent at any time.

Signature: _____ Date: _____

Thank you for your time and invaluable feedback!
